Andrew,

See the below email thread that Charlie was referring to, he was just copied on it and stated he did not know what discussion are taking place between Melissa Nootz (moms clean air force) and Doug along with what dates they were thinking of meeting. Charlie was just offering if Doug was going to be in Anaconda either October 18th or 19th we could also arrange a meeting with Suzanne McDermott to find out more about what other studies she is planning for Butte and Anaconda along with how EPA, ATSDR and the state are coordinating on health studies. Let me know if you have further questions. Thanks.

Subject: RE: Follow up - Anaconda stakeholders

Hi Doug – here are a few updates on the meeting timeframes for both CSKT and Anaconda Stakeholders.

- We looked at dates this morning and found October 30 & 31 as a time period for both CSKT and Anaconda meetings.
- CSKT legal staff scientist, Mary Price, also agreed that a late October meeting would be better.
- For the CSKT/Smurfit Stone portion, Mary suggested meeting in Missoula, MT. CSKT will want fellow federal trustees, the USFWS and US Forestry, to attend the meeting, and possibly MT's Natural Resources fund representatives.
- We can outreach to Ms. Nootz, ADLC and the state to schedule their meeting as well.

Please let us know if you have questions or concerns. Thanks! – Kim V.

Let's look for some dates I can be in MT to meet with this organization and also CKST on Smurfit. If possible we should have ADLC and the state at the Anaconda meeting.

Hello,

Thanks for the reply. I understand your schedule must be pretty full, and I look forward to hearing some dates that would work for you.

I was thinking, it would be nice if we could carve out a nice block of time (4 hours?) so our members have time to get more of their concerns addressed.

Thanks for your interest,
Melissa

Melissa, thanks for the email it is serendipitous I was unpacking from my trip and set your card aside to call. Yes, we will coordinate on a meeting in Anaconda, I am travelling again today and won't be back in until the end of the week. If you could give a week or two to figure out my schedule and provide some dates to you I would appreciate it. I really look forward to meeting with you and your members.

Best,

Doug

Dear Administrator Benevento,

I wanted to follow up with you and thank you for listening to my concerns last Friday at the stakeholders' meeting. And thanks also for offering to take time to hear our member's concerns and inviting us to continue the conversation with you outside of the stakeholders' meeting.

It sounds like you visit Anaconda frequently. If possible, perhaps we could coordinate to meet again sometime with some of the members that may be willing to meet directly with you on one of your upcoming visits. I look forward to continuing to dialogue and learn more about how the EPA can help our community and meet their needs while keeping our childrens' health a top priority.

Thanks again,
Melissa

Andrew,

Doug copied me on an email this morning in which he was discussing finding some dates in October to meet with Moms for Clean Air in Anaconda and also about Smurfit. Could you let him know about Dr. McDermott's talk and her possibly being available to meet with EPA and the state about Butte.

Hello Dr. Partridge,
Thanks for getting in touch. I will be giving a seminar at Montana Tech on Thursday October 18 about the epidemiologic work I am doing in Silver Bow and Deer Lodge counties. The talk is "Population-based Analyses of Health Risks Associated with Residence in Montana Past and Present Mining Communities". It will be at 6pm in Café Scientifique (I assume this is on the MT Tech campus). I would be happy to talk to you if you are in Butte on October 18 or 19th. I have toured the Superfund site previously so that is not necessary and I am hoping to meet with Health Department colleagues during the morning on October 18th. Please let me know if you want to arrange a time to talk in person or by phone.
Regards

Suzanne

Dr. McDermott,

I am the toxicologist/risk assessor for the EPA at the Butte and Anaconda Superfund sites. I would love to discuss your paper and the sites if you are available. I also noticed in the Montana Standard article that you will be in Butte, to give a talk in October. If you would like, I could arrange tours of the sites and meetings with the site teams and our State partners.

Thank you,

Charlie
